

Dracula Unearthed (Desert Island Dracula Library Book 4)

To see our full range of Dracula studies, go to Kindle Store and search for DESERT ISLAND DRACULA LIBRARY. Dracula Unearthed takes the lid off Stokers most famous novel. With the aid of 3,400 textual endnotes and annotations, new light is shed on its sources, characters and structure. Stoker never went to Transylvania, so how could he describe it so graphically? Prior to Dracula, he had never written about vampires, so how could he make them so believable? Contemporary critics seemed oblivious to Draculas sexual undercurrents, so how did he disguise its eroticism? These and many other questions are investigated in the most detailed annotated edition of Dracula yet undertaken.
