

1863, Vol. 1 (Classic Reprint)

Essays on Political Economy, by the late M. Frederic Bastiat. When it became necessary to issue a second edition, the Free-Trade League offered to buy the stereotype plates and the copyright, with a view to the publication of the book on a large scale and at a very low price. The primary object of the League is to educate public opinion ;to convince the people of the United States of the folly and wrongfulness of the Protective system. The methods adopted by the League for the purpose have been the holding of public meetings and the publication of books, pamphlets, and tracts, some of which are for sale at the cost of publication, and others given away gratuitously. In publishing this book, the League feels that it is offering the most effective and most popular work on political economy that has as yet been written. M. Bastiat not only enlivens a dull subject with his wit, but also reduces the propositions of the Protectionists to absurdities.(Typographical errors above are due to OCR software and dont occur in the book.)About the Publisher Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology.Forgotten Books Classic Reprint Series utilizes the latest technology to regenerate facsimiles of historically important writings. Careful attention has been made to accurately preserve the original format of each page whilst digitally enhancing the aged text. Read books online for free at www.forgottenbooks.org
