

William of Newburgh: The History of English Affairs Book 2 (Aris & Phillips Classical Texts (Paperback)) (Bk. 2) (Latin Edition)

The History of English Affairs, covering the years 1066-1197, was written at the close of the twelfth century and has been described as being both in substance and in form ... the finest historical work left to us by an Englishman of the twelfth century (The Dictionary of National Biography). The authors critical ability, gifts of acute observation, clear judgment and tolerant impartiality justify his high reputation as an original authority. Book Two covers the years 1154-75, and incorporates the murder of Thomas Becket in Canterbury Cathedral, the capture of the King of Scots at Alnwick, and the first subjugation of Ireland by the English. It also documents the career of Nicholas Breakspear, the only Englishman to become Pope.
